

DT. Isaak Coimbra

Business: Studio Dental

Country: Brazil / Spain

Milling Equipment:

Furnace:

Core Skill: Ceramist

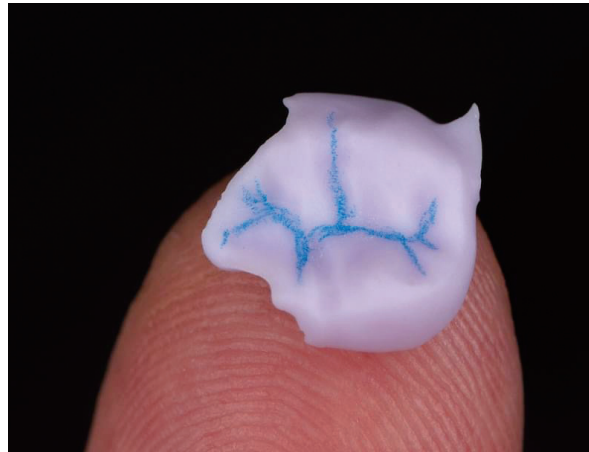

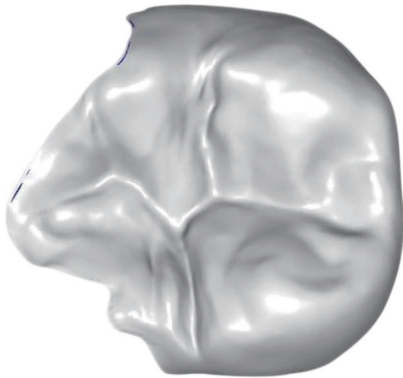

Career Overview

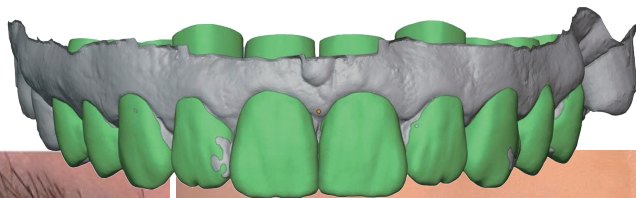

Case 1

Block & Makeup Miyo

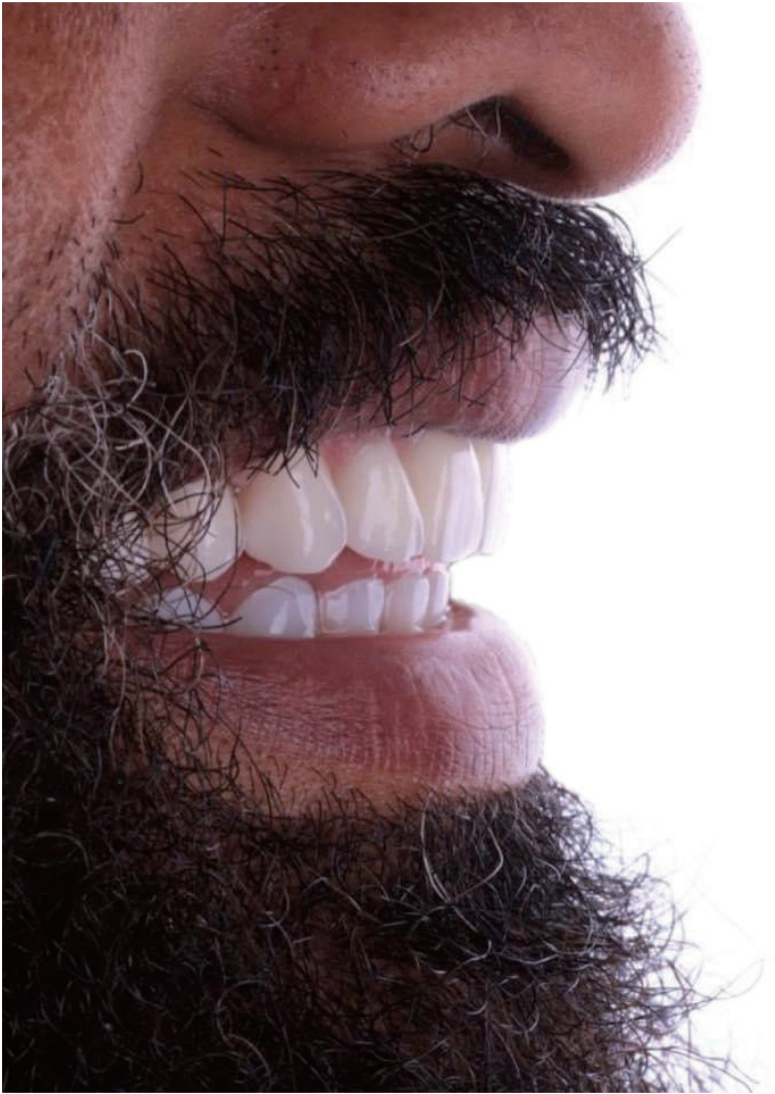

Material	Rosetta SM
Restoration	
Workflow	

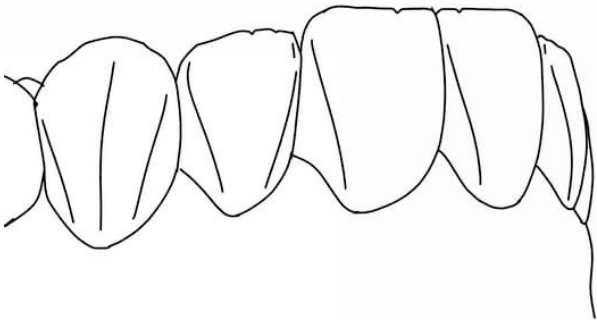

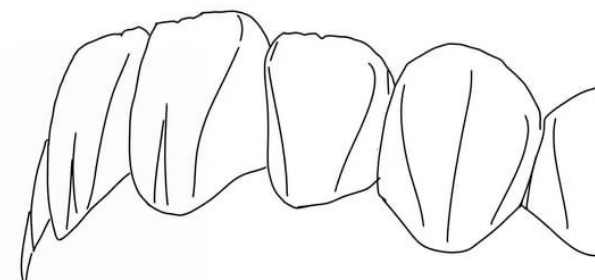

"From vision to reality – where digital lines become emotional smiles."
This visual comparison beautifully bridges the design sketch and the final prosthetic outcome. It illustrates how precision, emotion, and artistry meet in modern dental restorations.

The hand-drawn lines reflect the technical blueprint, while the final veneers embody warmth and vitality, revealing that true beauty goes beyond symmetry—it resonates with the heart.

► When function meets soul, you get more than a smile
you get emotion in motion.
